FOR IMMEDIATE RELEASE

Re: Ashley Horner

To Whom it May Concern:

Since August of 2014, I have personally represented Ashley Horner and her various endeavors. Whether it was to start a new business, establish a nonprofit, employ families, or provide for those less fortunate, we have strived to do this legally and with the utmost integrity.

At times, being a public figure can, and does, provide challenges not common to most. Whether it is one's personal life being open to the public, a microscope over decisions, or jealousy spurred from success – Ashley Horner has always acted with legalities in mind and with a heart to help others.

The last month have been a trying time for Ashley and her family. We ask for privacy and for her personal life to be respected. However, we also understand and appreciate the value of transparency.

We encourage anyone to contact the Maison Fortune Orphanage, St. Jude's, and any other admirable causes or people Ashley and her team have helped over the years. In addition, the Unbroken Foundation will gladly provide any requested documentation as soon as reasonably possible based on the request. We do, however, ask for some patience as Ashley's CPA is embarking on accounting season.

In a world of social media and cowardly accusations behind hidden curtains, transparency is paramount. We look forward to rectifying these senseless claims and continuing to support causes that Ashley, American Brew, her sponsors, and followers are passionate.

All my best,

Mitch D. McCuistian
MDM/pnf
